Editor

H. YUKAWA, *Kyoto*

Volume 36

JULY—DECEMBER

1966

Published for the
Research Institute for Fundamental Physics
and
The Physical Society of Japan

CONTENTS

No. 1 JULY

The Effect of Finite Ion Larmor Radius on the Propagation of Magnetoacoustic Waves ..... Nobuo Yajima 1
Second Helium Flash and an Origin of Carbon Stars ..... Daiichiro Sugimoto and Yoshiaki Yamamoto 17
On the Quadruple Correlation in the Extra Binding Energy of the *s-d* Shell Nuclei ..... Kenji Suzuki and Sinobu Nagata 37
Canonical Ensemble Formalism for Multiple Production ..... Toshitake Kohmura 51
High Energy Elastic Scattering and a Peripheral and Uncorrelated Jet Model ..... Mitsuru Hama 59
A New Derivation of Classical Models of the Spinning Electron from the WKB Solutions to the Pauli and Dirac Equations ..... Hisaiti Yamasaki 72
Behavior of Elastic Scattering Amplitudes at High Energies ..... Masakuni Ida 86
On the Universality of the Strong Interaction of Hadrons ..... Ken-iti Matumoto and Akira Takenaka 99
Electromagnetic Structure of the Nucleon with Many-Particle Structure ..... Yukiko Kinoshita, Tsunehiro Kobayashi, Shigeru Machida and Mikio Namiki 107
The Fundamental Triplet and Its New Degree of Freedom .. Shoichi Hori 131
Multichannel Scattering and Equivalence between Four-Fermion and Yukawa Coupling ..... Haruichi Yabuki 138
A Comment on the Mass Formulas Derived from Group Theory .. Hiroshi Katsumori 148
Symmetry of Strong and Weak Interactions ..... Seitaro Nakamura and Shigeo Sato 159
Radiationless Condition and Renormalization ..... Noboru Hokkyo 175

Letters to the Editor:

Calculation of Boson Mass Levels Based on the Composite Model ..... M. Aoki 181
K-π Resonances and the μ Polarization in $K_{\mu 3}$ ..... Y. Ito 182
Two-Pion-Exchange Potential with Nucleon Pairs ..... N. Hiroshige and K. Senba 184
Equation of Motion of Elementary Particle from Unified Approach ..... T. Takabayasi 185
A Unified Wave Equation for Elementary Particles ..... H. Kase and T. Takabayasi 187
Real Amplitude in High Energy Elastic Scattering ..... M. Hama and Y. Sumi 190

Contents of Journ. of Phys. Soc. of Japan, Vol. 21, Nos. 4 and 5 i

No. 2 AUGUST

Statistical Mechanics of Turbulent Plasmas. I——*Diagram Formulation for the Klimontovich Equation*—— ..... Kyoji Nishikawa 193
Relativistic Formulation of the Green's Function Method in Periodic Lattices ..... Satoshi Takada 224
Residual Attenuation of Shear Waves in Aluminum ..... Mario Yokota, Hiroyuki Kushibe and Toshihiko Tsuneto 237
Theory of Two Nucleon Transfer Reactions. II——(t,p) *and* (p,t) *Reactions*—— ..... Ching Liang Lin 251
Theory of Hindered Nuclear Matrix Elements ..... Jun-Ichi Fujita and Kiyomi Ikeda 288
Quasi-Spin Formalism and Matrix Elements in the Shell Model ..... Akito Arima and Munetake Ichimura 296
Scattering Phase Shifts at High Energies ..... Yoshio Higuchi and Shigeru Machida 313
Partially Connected Faddeev-Weinberg-Rosenberg Equation ..... Tatsuo Tsukamoto 337
A Static Model Calculation of the Nucleon Ground State .. Takashi Itoh 342
Dispersion Theoretic Calculation of the Two-Pion-Exchange Contribution in Nucleon-Nucleon Scattering. II——*Detailed Investigation by Comparison with the OBEC Amplitude*—— ..... Susumu Furuichi and Wataro Watari 348
***M*(12) and Vector-Meson Production at High Energy** ..... Masataka Hosoda and Kunio Yamamoto 366
***SU*(6) and Non-Leptonic Weak Interactions. II** ..... Masataka Kato 373
Behaviour of Masses and Coupling Constants in Two Processes Involving Vanishing Z_3 ..... Kisei Kinoshita 380
Note on the Gravitational Interaction ..... Toshiei Kimura 394

Letters to the Editor:

Resolution of B-B-G-K-Y Hierarchy and Transport Coefficients ..... S. Fujita 410
A Possible Origin of Hard Core in the Nuclear Force ..... T. Kobayashi 412
A Turbulence Theory of the Longitudinal Waves in Electron Plasmas ..... Y. Sasakura 413
Angular Distribution Dependence on Transverse Momentum in High Energy Collisions ..... H. Yabuki 415
Persistence of Zero Sound in the Possible Superfluid Phase of He^3 ..... A. J. Leggett 417
On the Structure of Baryons ..... T. Tati, H. Nagai and K. Okada 419
General Solution for the Modified Bogoliubov Functional in Non-Equilibrium Statistical Mechanics ..... I. Hosokawa 420
One-Boson-Exchange Model in the Λ-N Interaction ..... M. Tsuge and T. Ueda 423
Sum Rule for the Magnetic Moment of the Dirac Particle ..... M. Hosoda and K. Yamamoto 425
Sum Rules for Magnetic Moments of Spin 1 and 3/2 Nuclei ..... M. Hosoda and K. Yamamoto 426

Erratum

Optical Model Parameters for Composite Projectiles (Vol. 35 (1966), 798) ..... A. Y. Abul-Magd and M. El-Nadi 427

No. 3 SEPTEMBER

Bound State in Metals due to a Fluctuating Perturbation ....Jun Kondo 429

Charge Trapping by a Vortex Line in Superfluid Helium ..... Toshio Soda 435

Some Properties of Quantized Vortex Rings near a Wall in Superfluid Helium .....Toshio Soda 445

Linked Cluster Expansion for a System with *s-d* Interaction ..... Ryozo Abe 454

Specific Heat of a Relativistic Degenerate Electron Gas ..... Tetsuo Hamada and Yosiaki Nakamura 465

Remarks on the Nonorthogonality Problem .....Tadashi Arai 473

A Method of Calculating the Energy Spectrum of an Electron in the Field of Many Potentials .....Tōru Hirota 488

Central Temperature and Density of Stars in Gravitational Equilibrium .....Katsuo Takarada, Humitaka Sato and Chushiro Hayashi 504

Fragmentation of a Cloud and the Mass Function of Stars in Galactic Clusters .....Takenori Nakano 515

Theory of Isobaric States and Hindered Fermi Nuclear Matrix Elements .....Jun-Ichi Fujita and Kiyomi Ikeda 530

On the Renormalization Effect due to the Ground State Correlation on the Nuclear Vibrational Motion .....Hiroharu Bandō 551

Pion-Nucleon Backward Scatterings at High Energies and Pion Structure .....Mikio Namiki and Ichiro Ohba 568

A Possible Scheme for the Nonleptonic Decays of Hyperons. II .. .. Takao Kaneko 598

***SU*(3) Symmetry and Relation between Baryons and Leptons** .... Sho Tanaka 607

Construction of a Representation for Spin-2 Bargmann-Wigner Functions through Two Spin-1 Bargmann-Wigner Functions ——*c-Number Theory*—— .....Juan Carlos Gallardo, Andrés José Kálnay and Salomón Héctor Risemberg 627

Generation of Dual Transformation through Fields in Electrodynamics .....H. Fröhlich 636

Letters to the Editor:

Corepresentations of Magnetic Space Groups .....C. J. Bradley and A. P. Cracknell 648

Regge Pole Representation for the Exchanged ρ Resonance .....M. Imoto 649

Quark Model and πN Backward Scatterings .....M. Namiki and I. Ohba 651

Algebra of Currents and the Operators at $t=\pm\infty$ .....S. Kitakado and A. Toyoda 653
The Many-Body-System-Like Structure of the Basic Particle .....T. Tati 655
Weak Radiative Decay of Hyperons. II .....A. Toda 657
Effects of the Absorption on the Real Phase Shift .....G. Hida and T. Yano 658
Internal Polarization and Relativistic Elementary-Particle Algebra ..... T. Takabayasi 660
Relativistic Elementary Particle States of an Internally Structured Model .....
..... T. Takabayasi 662
Nuclear Spectroscopic Calculations without Repulsive Core Effects .....
..... U. Ghai, N. Kumar and B. Sood 664
An Attempt at Systematizing Meson-Baryon Resonances .....S. Otsuki and S. Sawada 666
Permutation Symmetry of the Quark Fields .....I. Watanabe 668

Erratum

SU(6) and *RP* Invariance in Nonleptonic Baryon Decays (Vol. 34 (1965), 318) ..C. Itoh 670

No. 4 OCTOBER

Zero-Energy Elastic Scattering Length of Positrons from Helium Atoms .....Tasuke Hashino 671
Theory of Correlation Function for the Cation Distribution in Magnetite....Tamifusa Matsuura, Keiji Yamada and Akio Yoshimori 679
Contribution to the Theory of Impurity Band Conduction. I ——*Reformulation of Matsubara-Toyozawa Theory*—— .....
..... Takeo Matsubara and Takahito Kaneyoshi 695
Bound State due to the *s-d* Exchange Interaction——*Effect of the Higher Order Perturbation*—— .....Ayao Okiji 712
Special Energies in the Electronic Energy Spectrum for a Disordered Diatomic Chain .....Koh Wada 726
On the Question of Charge Symmetry in *D-D* Reactions .....
..... David U. L. Yu 734
Impact Parameter Formalism. IV ——*The Non-Zero Spin Case*——
.....Toshimi Adachi, Tsuneyuki Kotani and Minoru Takeda 745
***SU*(6), *RP* Invariance and Nonmesonic Decay of Hypernuclei** ....
..... Chiaki Itoh 761
Breakdown of SU_3 Symmetry and Baryon-Lepton Correspondence
.....Ikuo Sogami 773
Classification of an Unstable Particle and Its Propagator.....
.....Masayuki Uehara 781
Propagator and Vertex Function of a Bound State in the Green's Function Formalism.....Noboru Nakanishi 799
The Strong Coupling Theory of a Chiral Four Fermion Interaction
.....Munetake Ichimura, Keiji Kikkawa and Koichi Yazaki 820

Letters to the Editor:

Mass Formula for Higher Boson Resonances .....T. Akiba 842

Wolf-Rayet Stars and Stars Rapidly Losing Mass ..... Y. Tanaka 844
Baryon Resonances in a Quark Model ..... M. Ida and R. Kobayashi 846
Ultrasonic Attenuation in Magnetics at Low Temperatures ..... K. Tani 848
Hypercharge Conservation and the Shmushkevich Principle ..... F. Takagi 849
Electron-Positron Exchange Energy and Positron Effective Mass in an Electron Gas ..... T. Hamada and Y. Nakamura 851
A Note on the Commutator Method for Hindered Nuclear Matrix Elements ..... M. Ichimura 853
Hulthén Orbital and Hulthén Correlation Factor for the Ground State of Heliumlike Systems ..... R. G. Parr and J. H. Weare 854

Contents of Journ. of Phys. Soc. of Japan, Vol. 21, Nos. 6 and 7 i

Announcement:

Proceedings of the International Conference on Elementary Particles, 1965 Kyoto v

No. 5 NOVEMBER

Theory of Ferroelectric Phase Transition in KH_2PO_4 Type Crystals. II ——*Dynamical Properties*—— ..... Masaharu Tokunaga 857
Ground State Energy of Conduction Electrons Interacting with a Localized Spin ..... Kei Yosida 875
Anisotropic Impure Superconductor and Resonance Scattering ..... Tomitaro Nagashima and Toshio Soda 887
Number-Phase Fluctuations in Two-Band Superconductors ..... A. J. Leggett 901
Electron-Phonon Interactions in the Transition Metals ..... A. J. Leggett 931
Landau and Peierls Criteria in the Theory of Electrical Conductivity ..... Toshihiko Ando and Kazuhisa Tomita 955
Be^9 (α, 2α) He^5 Reaction and Alpha-Particle Model for Be^9 ..... Jun Hiura and Ichirō Shimodaya 977
Nuclear Matter Calculations with Soft-Core Potentials in Momentum Space. I ..... Minoru Harada, Ryōzō Tamagaki and Hajime Tanaka 1003
Anomalous Interactions of High Energy Muons ..... Takashi Kitamura and Reiji Sugano 1014
The Backward Peak in Pion-Nucleon Scattering and Composite Structure of the Pion ..... Masahiro Imachi, Shoichiro Otsuki, Kenji Sakai and Masaru Yasuno 1023
On the Baryon Mass Levels. II ..... Masatoshi Yamazaki and Shoichi Hori 1035
Parity Violating Amplitudes for Nonleptonic Hyperon Decays ..... Hideyuki Koyama and Takanori Tamiya 1044
On the Domain of the Total Hamiltonian in Quantum Field Theory ..... Osamu Miyatake and Yusuke Kato 1054

Letters to the Editor:

On the Existence of *Two* Singular Points due to the *s-d* Interaction ..... Y. Kurata 1068
Special Frequencies in *n*-Dimensional Harmonic Lattices ..... H. Matsuda 1070
The Spin-Spin Interaction of 0.92 MeV Polarized Neutrons with Polarized ^{165}Ho Nuclei ....S. Kobayashi, H. Kamitsubo, K. Katori, A. Uchida, M. Imaizumi and K. Nagamine 1071
De Sitter Algebra Associated with the Poincaré Group and Center-of-Inertia ..... T. Takabayasi 1074
Global Variables of Relativistic Dynamical System and Massless States .. T. Takabayasi 1076
Quark-Antiquark-Meson Interactions and the *SU*(6) Symmetry ..... A. Kanazawa and T. Sakuma 1078
Effect of the Coulomb Interaction between *d* Electrons and of the *d-s* Pairing Interaction on Superconductivity in Dilute Alloys.....K. Takanaka and F. Takano 1080

No. 6 DECEMBER

A Statistical Model for the Dilute Ferromagnet ..... Itiro Syozi and Sasuke Miyazima 1083
On the Coexistence of Superconductivity and Ferromagnetism ..... Fumihiko Takano 1095
Specific Heat of Superconductors with Overlapping Bands ..... Toshio Soda and Yasushi Wada 1111
Nuclear Force and Nuclear Matter. I ..... Yoshinori Akaishi, Kenjiro Takada and Shuji Takagi 1135
The Algebra of Currents and the Meson Form Factors ..... G. Cocho and Harun Ar-Rashid 1150
Phase Shift Analysis and Real Amplitude of High Energy Proton-Proton Elastic Scattering....Mitsuru Hama and Masaaki Kawaguchi 1154
Dynamical Model for the *DBP* and *BBP* Coupling Constants in the Broken *SU*(3) Symmetry .....Fujio Takagi 1167
Pole Model of Nonleptonic Hyperon Decays, and Model of Hadrons and Their Fundamental Weak Interaction ..... Kanji Fujii and Akihiro Murayama 1185
Mass Levels of Higher Meson Resonances..... Shinsaku Kitakado, Kansuke Ninomiya, Yoshio Ohnuki and Akira Toyoda 1206
Mass Variation of a Composite Particle versus That of Its Constituent..... Minoru Hirayama 1219
On *G*-Parity Doublet Bosons ..... Takeshi Inoue, Kazo Nakazawa and Reiji Sugano 1226
Electromagnetic Properties of Baryons and the Quark Model ..... Shin Ishida, Kimiaki Konno and Hajime Shimodaira 1243
Baryon Number Changing Currents .....Hironari Miyazawa 1266
Representation Mixing and Sum Rules for Magnetic Moments from Current Commutation Relations..... Satoshi Matsuda 1277

On the Separation of Redundant Variables in the Quantum Theory of the Yang-Mills Field ..... Tetsuo Gotō 1283

Letters to the Editor:

Effects of the *d*-Electron Correlation on the Transition Temperature of an Anisotropic Impure Superconductor with Resonance Scattering .. T. Nagashima and T. Soda 1299
On Pion-Nucleon Scattering at High Energies ..... K. Hasebe, H. Kanada, S. Otsuki, S. Sawada and M. Yasuno 1301
Sum Rules for VVP Coupling Constants in Broken *SU* (3), Based on the Goldberger-Treiman Relations..... P. Ghose 1303
A Note on the PCAC Relation..... Z. Maki and I. Umemura 1304
Unitary Spin as Produced from Internal Spin..... T. Takabayasi and H. Kase 1307
On the Propagating Diffusion Mode..... T. Yamada 1309
Low-Lying Rotational Excited States in Soild Ortho-Hydrogen ..... S. Homma, K. Okada and H. Matsuda 1310

Errata

On the Nuclear Charge Distribution of Calcium Isotopes (Vol. 35 (1966), 750) .. T. Konishi and H. Narumi 1313
On the Value of the Electric Quadrupole Moment of the Deuteron (Vol. 35 (1966), 1154) ..... H. Narumi and T. Watanabe 1313

Contents and Author Index to Vol. 36 i
